Description: Covering costs incurred in connection with disconnected and reconnected electricity supply to customers who have not paid their due amounts within the specified deadlines or are in default of other contractual relationships. If a power supply disconnection occurs, the reconnection is made after payment of the service price as well as the amounts due by the customer for the respective site and the statutory interest for late payment.

2 Disconnection and reconnection of electricity supply for a customer's site, disconnected due to non-fulfillment of obligations, for which ENERGO-PRO Energy Services EAD is a previous supplier							
		69,00 BGN	35,28 €	according to the terms of the grid operator	99,00 BGN	50,62 €	according to the terms of the grid operator

Description: Covering costs incurred in connection with disconnected and reconnected electricity supply to customers who have changed their supplier, but have not paid their due amounts within the specified deadlines or are in default of other contractual relationships with their previous supplier. If a power supply disconnection occurs, the reconnection is made after payment of the service price as well as the amounts due by the customer for the respective site and the statutory interest for late payment.

* The services are requested for performance to the respective grid operator within 2 working hours after receipt of the amount on the account and/or elimination of the non-performance, which led to disconnection of the supply.
